SUMMER CREDIT PROMOTION

TERMS & CONDITIONS

PLEASE READ THE FOLLOWING TERMS AND CONDITIONS (“TERMS”) CAREFULLY BEFORE PARTICIPATING IN THE SUMMER CREDIT PROMOTION (“PROMOTION”). PARTICIPATION CONSTITUTES YOUR ACCEPTANCE OF THESE TERMS. THESE TERMS SHOULD BE READ IN CONJUNCTION WITH THE TERMS & CONDITIONS ON INVESTMENT SERVICES AND OUR PRIVACY POLICY.

If you have any questions about these Terms or on how the Promotion works, please feel free to contact us anytime.

1. PROMOTION OVERVIEW

The Promotion is organized by AXIORY GLOBAL LTD and TRADIT LTD (together hereinafter referred to as “AXIORY”) and will run from **04th August 2025 (00:00 GMT + 9) until 12th September 2025 (23:59 GMT + 9)** (the “Promotion Period”). The Promotion gives you the opportunity to receive a 100% deposit bonus (credit) up to JPY 60,000 and participate in a lottery draw for a chance to win cash prizes, subject to these Terms.

2. ELIGIBILITY CRITERIA

2.1 The Promotion is open to all clients (new and existing) aged 18 years or over who:

- Have a live AXIORY trading account; and
- Have agreed to these Terms

Clients who trade only on Alpha accounts are not eligible to receive credit as the credit is not generated on Alpha account types. Additionally, if you make an internal transfer (ITF) to Alpha account in which credit is supposed to be transferred proportionally, such credit will be removed. However, clients who trade only on Alpha account can participate in the lottery by joining social media initiatives, such as receiving a lottery ticket for sharing official campaign post. Lottery tickets will not be generated for trading.

2.2 Clients who participated in the Summer Warm-Up Promotion and fulfilled the below conditions, will receive an additional JPY 20,000 credit (raising their cap from JPY 60,000 to JPY 80,000):

- traded 1 lot or more from the start of the Summer Warm-Up Promotion (volume generated on Alpha accounts, and volume on CFD Stocks and Clash CFDs instruments on any account type is not counted); and
- made at least one deposit during that campaign.

3. PROMOTION RULES

3.1 The Promotion will run until **12th September 2025 (23:59 GMT + 9)** and the credit will expire (removed from the account) on **30th September 2025 (23:30 GMT + 9)**.

3.2 Deposit Bonus and Credit Limits:

- Bonus credit is applied at 100% of the deposit amount, up to your credit cap.
- If a client exceeds the cap, the remaining portion of the deposit will be processed without credit.
- The bonus credit is applied to your account equity and may be used as margin for trading from the time it is credited, alongside your own funds. If your account balance becomes negative with no open positions, the Company's negative balance protection (NBP) will apply, and any negative amount will be offset against the available bonus credit and the negative balance reset amount will be deducted from the available bonus credit. This applies on MT4 and MT5 platforms (cTrader platform is excluded).
- No minimum deposit requirement.
- Credit is not generated on Alpha accounts.

Examples:

Cumulative Deposits (up to limit):

Deposit 1: JPY 15,000 → JPY 15,000 credit

Deposit 2: JPY 25,000 → JPY 25,000 credit (Total credit JPY 40,000)

Deposit 3: JPY 10,000 → JPY 10,000 credit (Total credit JPY 50,000)

Deposit 4: JPY 50,000 → JPY 10,000 credit (Capped at JPY 60,000)

Single Deposit Exceeding Limit:

Deposit: JPY 100,000 → JPY 60,000 credit (Maximum applied)

Over-Limit Deposit Sequence:

Deposit 1: JPY 15,000 → JPY 15,000 credit

Deposit 2: JPY 100,000 → JPY 45,000 credit (Capped at JPY 60,000)

Summer Warm-Up Client Bonus Pool (eligibility as per 2.1):

Deposit 1: JPY 15,000 → JPY 15,000 credit

Deposit 2: JPY 100,000 → JPY 65,000 credit (Total credit JPY 80,000)

3.3 **Bonus Stabilizer & Stability Score & Calculated Volume:**

Bonus Stabilizer: The Bonus Stabilizer limits the portion of any Credit Bonus available for use as margin. The limitation is determined by the Client's Stability Score and corresponding Stability Level as set out in paragraph (d) below. The Bonus Stabilizer and Stability Score are calculated for each trading account separately.

Stability Score Formula: Stability Score = (Calculated Volume × 100,000) ÷ [(Balance + Available Credit) × Conversion Rate (USD)]

For example, if a client's trading account is in JPY, JPY → USD rate is used. If it is in EUR, EUR → USD is used.

- **Calculated Volume** = net lot size of the trade × Instrument Value Rate (see FAQ table)
- **Balance** = cash balance of the Client's account
- **Available Credit** = credit generated based on deposit including movements in balance operations such as ITFs and withdrawals. It is available for trading on an account before any adjustments via the Stability levels.
- **Conversion Rate (USD)** = the Company's prevailing conversion rate to USD.

Instrument Value Rates. Instrument Value Rates are used to determine the Calculated Volume. The instrument value rates are published in the FAQ section of the Company Website and may be updated from time to time.

Stability Levels and Credit %. Each account is assigned a Stability Level that corresponds to a percentage of the total Credit Bonus that remains usable as margin ("Credit %").

Recalculation Events. The Stability Score is recalculated, and the Credit % adjusted immediately upon: (i) the opening or closing of any market position; (ii) any deposit, withdrawal, ITF, a dividend charge, or any other balance operation; and (iii) any complex system operations, including adjustments resulting from ITFs, stop out events, or the application of NBP.

Level / Zone	Stability Score Range	Credit %
1	0 – 149	100%
2	150 – 199	100%
3	200 – 249	50%
4	250 – 299	33%
5	300 – 349	13%
6	350 – 9,999	0%

Special Edge Case: If Balance + Credit < 0 or if Stability Score > 9,999, Stability Score is automatically set to 9,999, resulting in 0% Active Credit.

If you make an ITF, the credit is not automatically removed, however upon requesting an ITF from the source account, the credit moves proportionally and immediately alongside with the balance. If the remaining equity with credit on the source account ends up in negative value, NBP will be implemented and the negative amount will be offset against the available bonus credit.

Example 1 – deposit and Stability Score recalculation:

Deposit: JPY 60,000 → JPY 60,000 credit (100%)

Client opens positions on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((60,000 + 60,000) * 0.0067) = 24.78

Result: Stability Score is in Level / Zone 1, so Credit % stays on 60,000 (100 %).

Example 2 – deposit, ITF & Stability Score recalculation:

Deposit: JPY 60,000 → JPY 60,000 credit (100%)

Client opens position on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((60,000 + 60,000) * 0.0067) = 24.78 (*Stability Score is in Level / Zone 1, so Credit % stays on 60,000 (100 %)*)

Client makes transfer of 30,000 JPY (50 % of balance) while holding the opened position of 0.2 lots

Stability Score* = (0.2 x 100,000) / ((30,000 + 30,000) * 0.0067) = 49.75 (*Stability Score is in Level / Zone 1, so Credit % stays on 30,000 (100 %)*)

**Stability score on the trading account from which the ITF was made. It illustrates the Stability Score on the same tradning account after the ITF is made*.

3.5 The Promotion may be combined with any other credit or cashback received on trading volume which AXIORY may offer from time to time. Cumulative credit granted shall not exceed 650.000 JPY. If the cumulative credit exceeds the 650.000 JPY cap, such additional credit will be removed. In the event you enter another promotion offered by AXIORY and fulfill its terms, you will not be granted any more credit above the already accumulated cap. It is your responsibility to keep track of your cumulative credit amount and AXIORY shall not be liable for any inconvenience caused by exceeding the 650.000 JPY cap.

3.6 The Promotion is available on a per-client basis (not on a per-account basis), regardless of the number of accounts held with AXIORY.

3.7 Any profit earned via trading with the Promotion can be kept and withdrawn in accordance with AXIORY's withdrawal of funds procedure. Withdrawal fees apply.

3.8 In the event the equity [the balance (closed positions) in the trading account plus the floating profit and loss from open positions] on the account reaches negative value ("equity without credit") the Promotion shall not be automatically removed as long as the total equity remains above zero. Please see examples below:

Example 1:
Equity = 10,000 JPY
Credit = 5,000 JPY
Equity without credit = 10,000 – 5,000 = 5,000 JPY

- In this example, the remaining equity on the trading account is 5,000 JPY, and the Promotion remains active.

Example 2:
Equity = 4,999 JPY

Credit = 5,000 JPY
Equity without credit = 4,999 – 5,000 = -1 JPY

- In this example, although the equity without credit reached the negative value of -1 JPY, the Promotion remains active, since total equity is still positive and the credit can be used as margin for trading.

3.9 You acknowledge that any indication or suspicion of any form of abuse, fraud, manipulation, in AXIORY's reasonable discretion, may lead to such account's disqualification from participation in the Promotion.

3.10 AXIORY will not be liable for any adverse effects where an account has open positions or floating profit/loss which results in the Promotion being removed for any reason.
