SUMMER CREDIT PROMOTION

TERMS & CONDITIONS

PLEASE READ THE FOLLOWING TERMS AND CONDITIONS ("TERMS") CAREFULLY BEFORE PARTICIPATING IN THE SUMMER CREDIT PROMOTION ("PROMOTION"). PARTICIPATION CONSTITUTES YOUR ACCEPTANCE OF THESE TERMS. THESE TERMS SHOULD BE READ IN CONJUNCTION WITH THE TERMS & CONDITIONS ON INVESTMENT SERVICES AND OUR PRIVACY POLICY.

If you have any questions about these Terms or on how the Promotion works, please feel free to contact us anytime.

1. PROMOTION OVERVIEW

The Promotion is organized by AXIORY GLOBAL LTD and TRADIT LTD (together hereinafter referred to as "AXIORY") and will run from **27th July 2026 (00:00 GMT+9) until 04th September 2026 (23:59 GMT+9)** (the "Promotion Period"). The Promotion gives eligible clients the opportunity to receive a 100% deposit bonus (credit) up to USD 430 to be used for trading purposes and to participate in a lottery draw for a chance to win prizes, subject to these Terms.

2. ELIGIBILITY CRITERIA

2.1 The Promotion is open to all clients (new and existing) aged 18 years or over who:

- Have a live AXIORY trading account; and
- Have agreed to these Terms

Clients who trade only on Alpha accounts are not eligible to receive credit as the credit is not generated on Alpha account types. Additionally, if you make an internal transfer (ITF) to an Alpha account in which credit is supposed to be transferred proportionally, such credit will be removed. MAM and Self-Funded Trading (SLF) accounts are also not eligible to participate in the Promotion.

2.2 Clients must complete the applicable client verification requirements in accordance with AXIORY's client onboarding policies before becoming eligible to receive any lottery prizes.

3. PROMOTION RULES

3.1 The Promotion will run until **04th September 2026 (23:59 GMT+9)** and the credit will expire (removed from the account) on **31st December 2026 (23:59 GMT+9)**.

3.2 Deposit Bonus and Credit Limits:

- Bonus credit is applied at 100% of the deposit amount, up to USD 430 per client (credit cap).
- If a client exceeds the credit cap, the remaining portion of the deposit will be processed without credit.
- The bonus credit is applied to your account equity and may be used as margin for trading from the time it is credited, alongside your own funds. The cushion functionality applies only on MT4 and MT5 platforms (Alpha accounts and cTrader excluded). If your account balance becomes negative with no open positions, AXIORY's negative balance protection (NBP) policy will apply, and any negative

amount will be offset against the available bonus credit and the negative balance reset amount will be deducted from the available bonus credit wherever credit is available.

- No minimum deposit requirement.
- Credit is not generated on Alpha accounts.
- Bonus credit may be granted multiple times until the cap of USD 430 is reached, and only during the Promotion Period.

Examples:

Cumulative Deposits (up to limit):

Deposit 1: USD 100 → USD 100 credit

Deposit 2: USD 130 → USD 130 credit (Total credit USD 230)

Deposit 3: USD 200 → USD 200 credit (Total credit USD 430)

Single Deposit Exceeding Limit:

Deposit: USD 1,000 → USD 430 credit (Maximum applied)

Over-Limit Deposit Sequence:

Deposit 1: USD 150 → USD 150 credit

Deposit 2: USD 200 → USD 200 credit (Total credit USD 350)

Deposit 3: USD 400 → USD 80 credit (Capped at USD 430)

3.3 **Bonus Stabilizer & Stability Score & Calculated Volume:**

Bonus Stabilizer: The Bonus Stabilizer limits the portion of any Credit Bonus available for use as margin. The limitation is determined by the Client's Stability Score and corresponding Stability Level as set out in paragraph (d) below. The Bonus Stabilizer and Stability Score are calculated for each trading account separately.

Stability Score Formula: Stability Score = (Calculated Volume × 100,000) ÷ [(Balance + Available Credit) × Conversion Rate (USD)]

For example, if a client's trading account is in JPY, JPY → USD rate is used. If it is in EUR, EUR → USD is used.

- **Calculated Volume** = net lot size of the trade × Instrument Value Rate (see FAQ table)
- **Balance** = cash balance of the Client's account
- **Available Credit** = credit generated based on deposit including movements in balance operations such as ITFs and withdrawals. It is available for trading on an account before any adjustments via the Stability levels.
- **Conversion Rate (USD)** = the Company's prevailing conversion rate to USD.

Instrument Value Rates. Instrument Value Rates are used to determine the Calculated Volume. The instrument value rates are published in the FAQ section of the Company Website and may be updated from time to time.

Stability Levels and Credit %. Each account is assigned a Stability Level that corresponds to a percentage of the total Credit Bonus that remains usable as margin ("Credit %").

Recalculation Events. The Stability Score is recalculated, and the Credit % adjusted immediately upon: (i) the opening or closing of any market position; (ii) any deposit, withdrawal, ITF, a dividend charge, or any other balance operation; and (iii) any complex system operations, including adjustments resulting from ITFs, stop out events, or the application of NBP.

Level / Zone	Stability Score Range	Credit %
1	0 – 249	100%
2	250 – 349	50%
3	350 – 9,999	0%

Special Edge Case: If Balance + Credit < 0 or if Stability Score > 9,999, Stability Score is automatically set to 9,999, resulting in 0% Active Credit.

If you make an ITF, the credit is not automatically removed, however upon requesting an ITF from the source account, the credit moves proportionally and immediately alongside with the balance. In the event of a withdrawal from the trading account, the available credit is reduced proportionally to the withdrawn amount. If the remaining equity with credit on the source account ends up in negative value, NBP will be implemented and the negative amount will be offset against the available bonus credit. Where multiple promotional credits are applied to a client, any proportional credit removal resulting from a withdrawal or ITF shall be applied on a first-in, first-out (FIFO) basis.

<u>Example 1 – deposit and Stability Score recalculation:</u>

Deposit: USD 430 → USD 430 credit (100%)

Client opens positions on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((430 + 430) * 1) = 23.25

Result: Stability Score is in Level / Zone 1, so Credit % stays on 430 (100 %).

<u>Example 2 – deposit, ITF & Stability Score recalculation</u>:

Deposit: USD 430 → USD 430 credit (100%)

Client opens position on FX pair totaling 0.2 lots

Stability Score = (0.2 x 100,000) / ((430 + 430) * 1) = 23.25 (*Stability Score is in Level / Zone 1, so Credit % stays on 430 (100 %)*)

Client makes transfer of 215 USD (50 % of balance) while holding the opened position of 0.2 lots

Stability Score* = (0.2 x 100,000) / ((215 + 215) * 1) = 46,51 (*Stability Score is in Level / Zone 1, so Credit % stays on* 215 *(100 %)*)

**Stability score on the trading account from which the ITF was made. It illustrates the Stability Score on the same trading account after the ITF is made*.

- 01 September 2026

eligible trading activity shall generate double (x2) lottery tickets. The Golden Day multiplier applies only to lottery tickets generated through trading activity.

Winning Tickets:

Each winning lottery ticket shall be removed from subsequent Weekly Draws only. Lottery tickets that win a Weekly Draw shall remain eligible for the Grand Finale Draw. A lottery ticket may not win more than one Weekly Draw. AXIORY reserves the right to verify each participant's eligibility before awarding any prize. Clients must satisfy AXIORY's verification requirements before becoming eligible to receive a lottery prize. Lottery prizes shall be credited to the client's AXIORY Wallet. Where the client does not already have an AXIORY Wallet, AXIORY will create one for the purpose of crediting the lottery prize, subject to the client satisfying the applicable account and verification requirements.

Clients who receive a prize in a Weekly Draw may be given the opportunity to share their winning result through the mechanisms made available by AXIORY. Where specified by AXIORY, a Client who completes such sharing may receive one (1) additional lottery ticket. This mechanism does not apply to winners of the Grand Finale Draw.

3.5 The Promotion may be combined with any other credit or cashback received on trading volume which AXIORY may offer from time to time. Cumulative credit granted shall not exceed 5,000 USD. If the cumulative credit exceeds the 5,000 USD cap, such additional credit will be removed. In the event you enter another promotion offered by AXIORY and fulfill its terms, you will not be granted any more credit above the already accumulated cap. It is your responsibility to keep track of your cumulative credit amount and AXIORY shall not be liable for any inconvenience caused by exceeding the 5,000 USD cap.

3.6 The Promotion is available on a per-client basis (not on a per-account basis), regardless of the number of accounts held with AXIORY.

3.7 Any profit earned via trading with the Promotion can be kept and withdrawn in accordance with AXIORY's withdrawal of funds procedure. Withdrawal fees apply.

3.8 In the event the equity [the balance (closed positions) in the trading account plus the floating profit and loss from open positions] on the account reaches negative value ("equity without credit") the Promotion shall not be automatically removed as long as the total equity remains above zero. Please see examples below:

Example 1:
Equity = 10,000 USD
Credit = 5,000 USD
Equity without credit = 10,000 – 5,000 = 5,000 USD

- In this example, the remaining equity on the trading account is 5,000 USD, and the Promotion remains active.

Example 2:
Equity = 4,999 USD
Credit = 5,000 USD
Equity without credit = 4,999 – 5,000 = -1 USD

- In this example, although the equity without credit reached the negative value of -1 USD, the Promotion remains active, since total equity is still positive and the credit can be used as margin for trading.

3.9 You acknowledge that any indication or suspicion of any form of abuse, fraud, manipulation, in AXIORY's reasonable discretion, may lead to such account's disqualification from participation in the Promotion.

3.10 AXIORY will not be liable for any adverse effects where an account has open positions or floating profit/loss which results in the Promotion being removed for any reason.
